

EVT E6 - Populated board / front

167 fitted components on front. J2 and rear test pads are bare copper, not fitted parts.

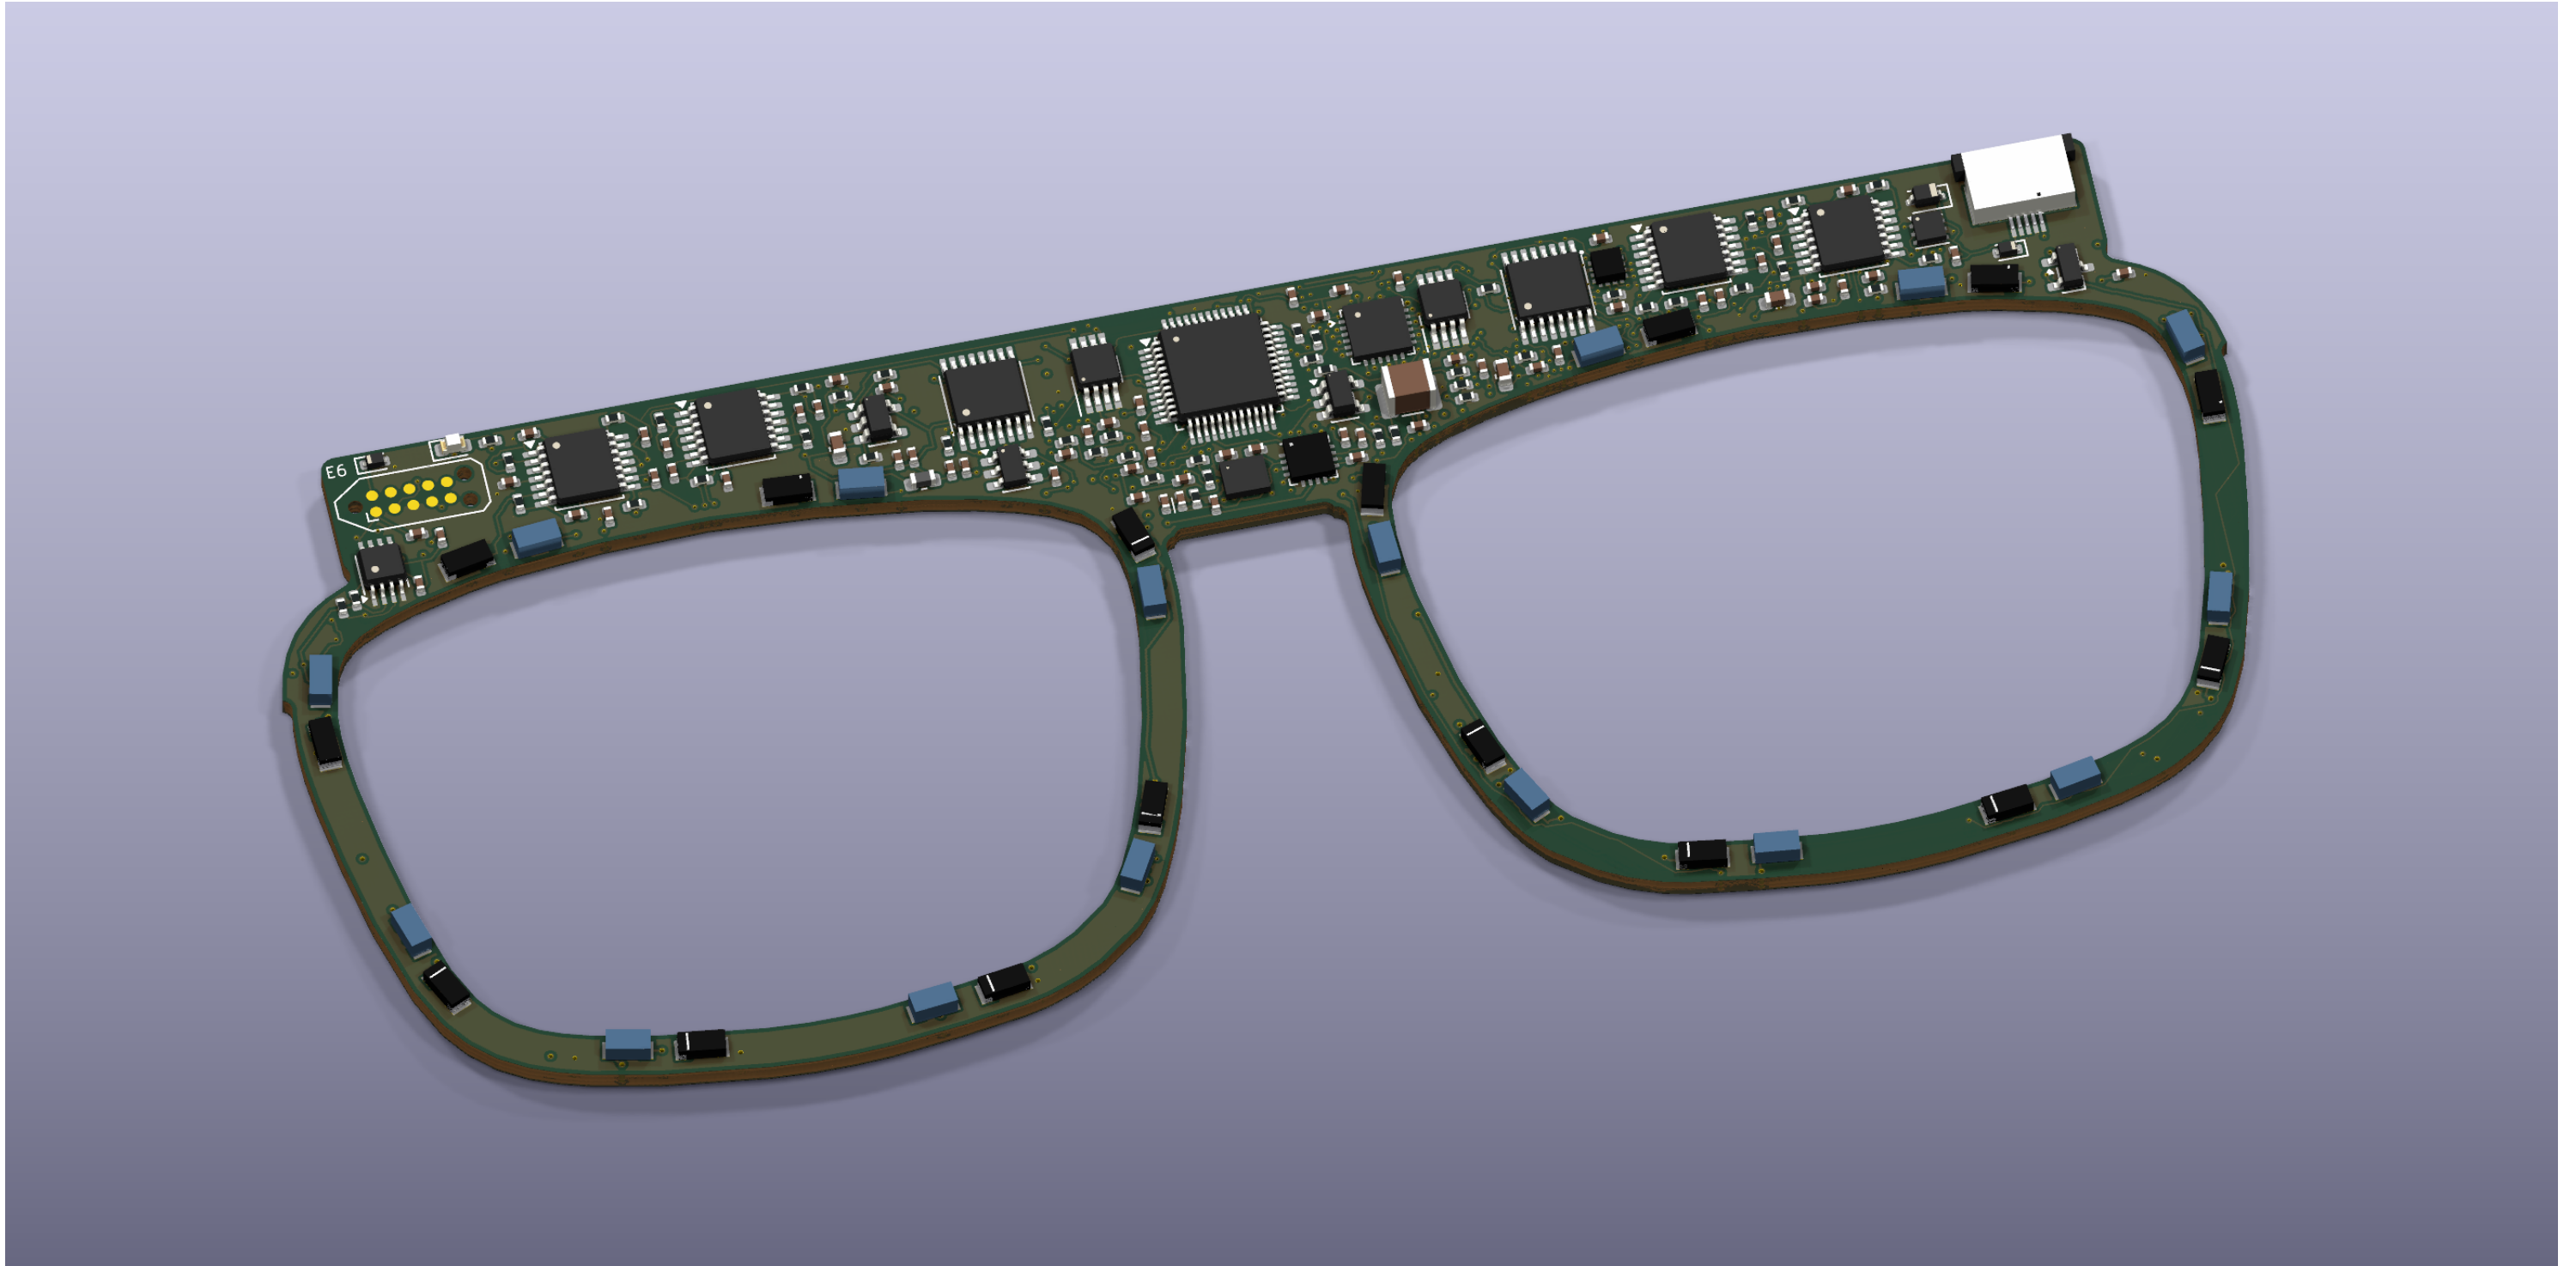

KiCad 10.0.6 rendering from the released PCB. Illustrative component appearance, not a photograph.
U15 uses a nominal-dimension model. Use optical_assembly.pdf and CPL for reference IDs, Pin1 and polarity.

2026-09-17 | J1: GUOCONN 0.5K-AS-5PWB-RW; U18 input limiter / U19 OV monitor; input 3.3 V +/-3% | Electrical / optical bench validation pending.

EVT E6 - Populated board / oblique

167 fitted components on front. J2 and rear test pads are bare copper, not fitted parts.

KiCad 10.0.6 rendering from the released PCB. Illustrative component appearance, not a photograph.

U15 uses a nominal-dimension model. Use optical_assembly.pdf and CPL for reference IDs, Pin1 and polarity.
